SUMMARY OF QUALIFICATIONS

Full Stack Web Developer looking for a full-time web development position. I am experienced in Javascript, Node.js, Express.js, MySQL and MongoDB, php, and more. As a life long learner I have a passion for discovery and learning, and am constantly excited about the possibilities this industry has to offer. Additionally, I am proficient in Spanish and am currently working on my Certified Developer Associate certificate for AWS.

BUILT APPLICATIONS (PLEASE VISIT MY PORTFOLIO FOR MORE INFORMATION AND MORE OF MY WORK/PROJECTS)

Faux Real

- News application that allows its users to vote on different news articles on whether they believe the article is fake or not.
- <http://faux-real.herokuapp.com/>

newsScraper

- A Full Stack application powered by the npm package Cheerio. Through cheerio it scrapes twenty of the top headline news articles from the New York Times for its users.
